

Palm Desert Partnership Program

2011 RESIDENTIAL PROGRAM — ELECTRIC

January 1, 2011 – December 31, 2012

Palm Desert Energy Partnership

Cash Rebates for existing residential dwellings, attached homes, condominiums and mobile homes.

HOW TO APPLY

1. **Read** the Terms and Conditions included in this application package. Applications are accepted on a first-come, first-served basis. This program shall at all times be subject to change or termination without prior notice.
2. **Purchase and install** qualifying product(s) between **January 1, 2011 through December 31, 2012**. Please be aware, these order/purchase dates will end earlier if funds are depleted. Qualifying products must be installed prior to submitting for a rebate.
3. Complete the Product Form and **read and sign** the Customer Application Form. Mail the completed forms along with a **copy of the receipt or proof of purchase** to:

SCE Rebate Processing Center
P. O. Box 800
Rosemead, CA 91770

Completed forms with required documentation must be **postmarked by January 31, 2013**. Incomplete applications cannot be processed.

4. **Keep a copy** of your completed forms with required documentation (including receipts or home improvement contract) for your records.
5. A rebate check will generally be mailed within 4–6 weeks unless (a) your application is incomplete or (b) is selected for verification which may result in additional processing time, or (c) funds are depleted. Applications are processed on a first-come, first-served basis.

SCE reserves the right to verify energy efficient product(s), customer eligibility, and equipment installation prior to payment of rebate.

6. You must be a resident of the City of Palm Desert to apply on this program.

Questions? Call SCE toll-free at 1-800-736-4777.

You may qualify for FREE energy-saving home improvements while funds last, and/or a 20% discount on your monthly energy bill, if you meet certain income guidelines and other requirements.

Please call SCE at 1-800-736-4777 for more information.

SOUTHERN CALIFORNIA EDISON An EDISON INTERNATIONAL Company

Palm Desert Partnership Program

2011 RESIDENTIAL PROGRAM — ELECTRIC January 1, 2011 – December 31, 2012

Please complete and sign this Customer Application Form and mail along with completed Product Form(s) and proof of purchase. Mail to: SCE Rebate Processing Center, P.O. Box 800, Rosemead, CA 91770

CUSTOMER INFORMATION

Form with fields for Property Type, Metering, SCE Service Account Number, First and Last Name, Daytime Phone Number, Address, and Mailing Address.

TERMS AND CONDITIONS — READ, SIGN AND DATE BELOW.

By submitting the Palm Desert Partnership Program Application, I understand and agree to the following:

- 1. To be eligible for the rebate: (a) I must be an SCE residential customer with a Palm Desert address on a residential rate with an active meter, and (b) the product(s) I have installed must (i) qualify for the rebate, (ii) be installed in a residential dwelling, fully occupied, within SCE's service area, and (iii) be designed to reduce my consumption of energy distributed to me by SCE at the installation address. I understand I must complete and submit an Application for each installation at each address where a qualifying product has been installed. All uses herein of the words "install", "installation", or similar phrases shall mean complete installation such that the subject products are fully functional.
2. The Palm Desert Partnership Program term is January 1, 2011 through December 31, 2012, yet may end or be modified sooner if allocated funds are depleted or changes are required to achieve program objectives. Any product(s) ordered or purchased prior to January 1, 2011 or after December 31, 2012 do not qualify for a rebate. Resale products, products leased, rebuilt, rented, received from warranty insurance claims, exchanged, won as a prize, or new parts installed in existing products do not qualify.
3. A signed and dated Application, and all other required documentation including all appropriate Proof(s) of Purchase, must be sent to SCE's Rebate Processing Center and postmarked by January 31, 2013 to be considered eligible for a rebate. After SCE receives a submitted Application, and determines that it is complete and accurate and approves it for payment, a rebate check is generally mailed within five weeks provided however, that SCE reserves the right to select any Application for verification, or reject any incomplete Applications. If an Application is selected for verification, additional time may be required before a rebate check is mailed.
4. Funds are limited. Applications are accepted on a first-come, first-served basis. This program may be modified or terminated without prior notice. In the event that rebate amounts change, the order/purchase date will be used to determine product eligibility and the application postmark date will be used to determine rebate amount, if any.
5. I will allow, if requested, SCE's and/or the California Public Utilities Commission's (CPUC) representative(s) reasonable access to my home to verify installation of the qualifying product I have purchased, either prior to payment of a rebate and/or following payment of a rebate. I understand that a rebate will not be paid if I refuse to participate in any required verification. I understand that if I refuse to participate in or fail any required verification after receiving a rebate, I may be required to repay to SCE the amount of any rebate received. The verification of installation must be scheduled within 30 days of customer contact by SCE. I understand that SCE may contact the qualifying product vendor and/or installer to verify purchase and/or installation and may provide my name and/or address to complete this verification.
6. I have installed a qualifying product(s) and understand the energy-efficiency level of the qualifying product(s) determines the rebate amount. The rebate amount may not exceed the purchase price. I understand that I cannot receive a rebate for the same product from more than one California investor-owned utility or third party energy efficiency program offering rebates, financing or other incentives funded with CPUC Public Goods Charge funds.
7. I agree that the selection of qualifying product(s), selection of manufacturer, dealer, supplier and/or installer, and purchase, installation and ownership/maintenance of the qualifying product(s) referenced in this Application are my sole responsibility, and the manufacturer, dealer, supplier or installer of these products is not an agent or representative of SCE.
8. I understand that SCE makes no representations regarding manufacturers, dealers, contractors, materials or workmanship. I ALSO UNDERSTAND THAT SCE MAKES NO WARRANTY WHETHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR ANY PARTICULAR PURPOSE, USE, OR APPLICATION OF THE PRODUCTS.
9. I agree that SCE has no liability whatsoever concerning (1) the quality, safety and/or installation of the products, including their fitness for any purpose, (2) the estimated energy savings of the products, (3) the workmanship of any third parties, (4) the installation or use of the products including, but not limited to, effects on indoor pollutants, or (5) any other matter with respect to the Palm Desert Partnership Program. I waive any and all claims against SCE, its parent companies, directors, officers, employees, or agents, arising out of activities conducted by or on behalf of SCE in connection with my Application for any rebate(s) under the Palm Desert Partnership Program. Without limiting the generality of the foregoing, none of such parties shall be liable hereunder for any type of damages, whether direct, or indirect, incidental, consequential, exemplary, reliance, punitive or special damages, including damages for loss of use, regardless of the form of action, whether in contract, indemnity, warranty, strict liability or tort, including negligence of any kind.
10. I am responsible for meeting all Palm Desert Partnership Program requirements and complying with my state/county/city governments, property owner and/or homeowners association requirements (if any) in my area regarding local conditions, restrictions, codes, ordinances, rules, and regulations concerning this installation.
11. If a tenant, I am responsible for obtaining the property owner's permission to install the product(s) for which I am applying for a rebate. My signature on this Application indicates I have obtained this permission.
12. SCE is not responsible for items lost or destroyed in the mail/transit.
13. SCE utilizes the "Point-of-Sale" method of program delivery for selected products with participating retailers. Under this method, customers will receive applicable rebates instantly at the cash register. In cases where the Point-of-Sale rebate is less than what is offered on this program, the customer may submit an application for the rebate difference.

I HAVE READ AND UNDERSTAND THE ABOVE TERMS AND CONDITIONS. I CERTIFY THAT THE INFORMATION I HAVE PROVIDED IS TRUE AND CORRECT AND THE PRODUCT(S) AND/OR EQUIPMENT(S) FOR WHICH I AM REQUESTING A REBATE MEETS THE REQUIREMENTS IN THIS APPLICATION PACKAGE.

Palm Desert Partnership Program

2011 RESIDENTIAL PROGRAM — ELECTRIC

January 1, 2011 – December 31, 2012

All equipment/materials must be new. Follow manufacturer installation requirements. Equipment/Materials must meet or exceed all applicable local, state and federal standards.

HOME IMPROVEMENT

SHADE COVERS AND AWNINGS

Shade covers and awnings prevent sunlight from entering your conditioned living space through windows. You can dramatically reduce the amount of heat that comes into your conditioned living quarters by installing shades covers/awnings over your west, south, and east facing windows. Shade covers and awnings must have a solid opaque roof deck. Trellis style shade covers do not qualify. Your invoice must specify the length of each window.

ENERGY STAR[®] QUALIFIED ROOM AIR CONDITIONER

A list of qualifying models is available at www.sce.com. Click on Rebates and Savings, Residential, ENERGY STAR[®] Qualified Air Conditioner.

VARIABLE SPEED POOL PUMP

Variable speed pool pump technology is new and the manufacturers claim you can reduce energy costs by as much as 50%. Neither single speed nor two-speed pool pumps qualify for this incentive — variable speed only. Your installation must have a controller, either built in to the pool pump and motor, or installed separately, enabling you to program the model to function at different speeds at different times.

The equipment installed must be a programmable, variable-speed pool pump replacing an existing and working single-speed pool pump and be programmed to run during daily off-peak hours. The horsepower of the new pump must be equal to or less than the horsepower of the pump that is replaced.

Resale products, products leased, rebuilt, rented, received from warranty insurance claims, exchanged, won as a prize, or new parts installed in existing products do not qualify.

Pumps used exclusively for spas, boosters, or fountains do not qualify.

SOUTHERN CALIFORNIA
EDISON[®]

An EDISON INTERNATIONAL[®] Company

Palm Desert Partnership Program

2011 RESIDENTIAL PROGRAM — ELECTRIC

January 1, 2011 – December 31, 2012

Qualifying models are:

MANUFACTURER	MODEL NO.
IKERIC	VS75, VS100, VS150, VS200, VS300
Pentair	Intelliflo VS 3050 with Intellicom Controller (Model #011013) Intelliflo VS + SVRS Intelliflo VF (Model #011012)
Hayward	Tri-Star Variable Speed Pump and Tri-Star Variable Speed Pump Control
Sta Rite	IntelliPro with Intellicom Controller
Zodiac	Jandy ePump with ePump Controller

SUNSCREENS

Sunscreen are mounted to the exterior of the clear single or dual paned assemblies (for example: Sliding and/or fixed glass windows or sliding glass doors or the fixed glass in French doors). They block a significant percentage of the rays of the sun, and keep them from entering your living quarters in the first place. This reduces the amount of air conditioning needed. Sunscreens are made of various woven materials or perforated metal and have a SHGC of .35 or less, or block at least 80% of the sun's rays. Can not apply for both sunscreens and window film on the same window.

ENERGY STAR[®] LABELED REFRIGERATOR

List of qualifying products is available at www.sce.com. Go to "Rebates & Savings, then Residential", then "ENERGY STAR[®] Labeled Refrigerator Rebate", then "List of Qualifying Models".

Only one refrigerator per residence is allowed. The new refrigerator must be the household primary use refrigerator.

EFFICIENT ELECTRIC STORAGE WATER HEATER

Efficient electric storage water heaters must have an Energy Factor (EF) of 0.93 or greater. **Look for the EF rating on the water heater specification sheet or on the packaging box; it does not always appear on the water heater label itself.** This rebate is limited to electric storage water heaters that are 30 gallons or greater. Tankless water heaters do not qualify. Replacing a gas water heater with an electric unit does not qualify.

List of qualifying products is available at www.sce.com or call SCE at 1-800-736-4777.

SOUTHERN CALIFORNIA
EDISON[®]

An EDISON INTERNATIONAL[®] Company

Palm Desert Partnership Program

2011 RESIDENTIAL PROGRAM — ELECTRIC

January 1, 2011 – December 31, 2012

WHOLE HOUSE FAN

A whole house fan must move 1000 cubic feet of air per minute (CFM) or more and be permanently installed (connected to the framing) to be eligible for rebate. Consult manufacturer's specifications to determine the proper size fan prior to purchase. Whole house fans are usually installed in your home by attaching the fan to the ceiling joists in the hall. The fan exhausts air from the living space into the attic, so it is important to make sure there is adequate attic ventilation to allow the air to easily escape. **Existing central air conditioner or heat pump required.**

It is recommended that louvers between the living space and the attic create a tight air seal. An insulated louver cover should also be purchased for use in the winter.

List of qualifying products is available at www.sce.com or call SCE at 1-800-736-4777.

Only one whole house fan per residence is allowed.

ENERGY EFFICIENT DUCTED EVAPORATIVE COOLING SYSTEM

Single Stage and Two Stage

1. Single stage or two state ducted evaporative coolers must be permanently installed through the wall or on the roof.
Note: Evaporative coolers mounted through a window do not qualify for a rebate.
2. Single state or two stage ducted evaporative coolers must have UL recognized electrical components.
3. Proof of purchase must be provided with your application.

Only one evaporative cooling system rebate per residence. List of qualifying products is available at www.sce.com/rebates. Click "Heating & Cooling", then "Energy Efficient Evaporative Cooling Rebate", then "List of Qualified Products".

Rebates will not be paid for pre-existing pressure relief damper(s).

Only one evaporative cooling system per residence is allowed.

Palm Desert Partnership Program

2011 RESIDENTIAL PROGRAM — ELECTRIC

January 1, 2011 – December 31, 2012

The QI Specification ensures that sound industry practices were used during the design and installation of the air conditioning system, meaning that your equipment operates efficiently and helps save you money as long as you use it, assuming proper maintenance. In order to maintain optimal operation throughout the life of the equipment, proper maintenance and servicing should be conducted as recommended by the installing contractor.

Please confirm that the products and equipment you are purchasing are qualified by carefully reading the specifications below.

A/C QUALITY INSTALLATION PROGRAM

ELIGIBILITY

For residential customers to participate in the A/C Quality Program they must meet the following requirements:

1. The residential customer must be located within SCE's service territory and receive electric service from SCE where service is performed.
2. Must be a residential customer owning a single family home.
3. Use a participating A/C Quality trained contractor.
4. HVAC system(s) for residential services must be central air conditioning, packaged or split-system, air condition or air-source heat pump units. The system must be less than 63.3 tons (760k BTU/h) per circuit and in working condition.
5. Only HVAC systems that have not received the same service in six (6) years are eligible.

PROGRAM PROCEDURES

To make sure your central air conditioning system keeps you cool, follow these simple steps:

Contact the A/C Quality Program at 1-800-378-7503 to find a participating contractor in your area.

Hire a professional service technician familiar with A/C Quality Program goals to:

- Test the refrigerant charge
- Test the refrigerant leaks using a leak detector
- Check for and seal duct leaks in central systems
- Measure air flow to determine if improvements can be made
- Check and clean condenser coils

Information to both Eligibility and Program Procedures can be found at: www.sce.com/ac

Just make sure to hit the drop down menu for each.

MAINTENANCE CONTRACT

Most HVAC contractors offer maintenance contracts. Keeping your system properly maintained can save you a significant amount of energy and trouble. Catching problems early is the best way to avoid being stuck with an inoperable system during the heat of summer. To be eligible for this rebate, you must sign a minimum of a three-year agreement with the qualified C-20 contractor of your choice. This contract must specify your address and the timeframe over which the contract is in effect.
